

JUPITER 700 SERIES ALTO/TENOR SAXOPHONES

The Jupiter 700 Series Alto/Tenor Saxophones boast patented, premium features that enhance the performance experience for both the beginning novice as well as the more serious player. From the newly formed bell and bow design to the warm, tonal quality of the hand crafted necks, the saxophones exceed expectation exhibiting incredible intonation and response across the entire instrument range. Whether performing jazz, popular, or classical repertoire, the 700 Series Alto/Tenor Saxophones from Jupiter will surely heighten your musical enjoyment.

Personalized Flexibility
Patented adjustable palm keys provide the player extended key height flexibility while the high F# key, front F key, and tilting G#/Bb table keys provide easier fingering.

Attention to Innovation
Patented G key adjusting mechanisms facilitate easier adjustments while upper and lower stack adjusting screws provide instant, accurate regulation.

Response Personified
Finely-tuned blued steel springs ensure responsive, positive key action which can be custom suited to the player's personal preference.

Personalized Playability
C#-Bb connected table key provides alternative fingering which can encourage better playing experience.

JAS700/ JTS700
